

# HYTORC®

**HYTORC** makes industrial bolting safer and simpler. With 45 years of experience focused entirely on developing the highest quality industrial bolting systems, **HYTORC** is

**Avanti Bolting System with Safety-Enhancing Track Fixture**

the most trusted name in the industry. We can provide time-saving solutions for nearly every bolting job on mining equipment. For custom projects, our highly experienced engineering team is at your service to design the most efficient solution for your job with simple operation and economical pricing in mind.

We are consistently improving upon existing products, and developing new tools, based on feedback from the people that use our tools every day. Our latest product line features patented industry-firsts like reaction arm-

free bolting to eliminate dangerous pinch points, hands-free operation to keep tool operators at a safe distance from the application, and industry-leading bolt load accuracy to reduce nut loosening and joint failure.

With authorized repair facilities located all over the World, a one-day turn-around is usually available. All of our products are covered by our worldwide one-year no-questions-asked warranty, which includes free parts and labor. Our mission is to make our customers' jobs as hassle-free as possible and we will do everything in our power to accomplish that.
