TRAINING**

NOTE: All HYTORC tools will be calibrated using the original equipment manufacturer's specification.

DESCRIPTION OF MOBILE SERVICES

FREE LOANER TOOLS

We know that your time is valuable. If a replacement tool is needed for an urgent job while your tool is being repaired, it is available free of charge.

DIGITAL CALIBRATION SYSTEM

Our mobile calibration lab provides on-site calibration of manual torque wrenches as well as hydraulic, pneumatic and electric tools with torque output up to 20,000 ft-lbs. For calibration of larger tools, our service technicians offer pickup and drop-off service.

FULLY EQUIPPED ON-BOARD REPAIR CENTER

Our technicians are trained to repair most brands of hydraulic, pneumatic and electric bolting systems on-site. If a repair cannot be completed, a free loaner tool will be offered while your tool is sent to our nearest service center for repair. Schedule a free visit today at: www.hytorcvan.com.

YOUR PARTNER FOR PRODUCTIVITY

With TORCSAFE, you can be sure that all of your HYTORC equipment is ready when you need it. Our highly trained technicians will remind you when service is due and schedule an on-site visit to inspect, repair, and calibrate your equipment as required.

ON-SITE SAFETY TRAINING

Regular safety and operational training is the simplest way to improve productivity and safety on the job. Our service technicians offer complimentary training while on-site and can provide information for more thorough training through our ASME and OSHA certified courses.

WEB-BASED INVENTORY MANAGEMENT

Our web-based inventory management gives you total control:

- Up-to-date information on all maintenance, calibration and repair
- Monitor location of equipment shared across multiple job sites
- Scannable calibration labels for quick access to online certificates
