

HYTORC

The World's Most Trusted Industrial Bolting Systems

HYTORC's mission is to optimize safety, quality and schedule in industrial bolting through innovative solutions, and an unyielding commitment to world-class customer service.

OVER 50 YEARS OF BOLTING SOLUTIONS

HYTORC makes industrial bolting safer and simpler. With over fifty years of experience, we are singularly focused on developing the highest quality industrial bolting systems. HYTORC is the most trusted name in the industry. From steel mills and mining equipment to refineries, power plants, and wind turbines; we have developed solutions for every bolting application imaginable. For custom projects, our highly experienced engineering team is at your service to design the most efficient solution for your job with simple operation and economical pricing in mind.

We are consistently improving upon existing products, and developing new tools, based on feedback from the people that use our tools every day. Our latest product line features patented industry-firsts like hands-free operation to keep tool operators at a safe distance from the application, onboard documentation systems to provide job accountability and assurance, and industry-leading bolt load accuracy to reduce nut loosening and joint failure. Contact HYTORC today to find out how we can optimize your bolting processes.

HYTORC ONSITE AND ONLINE SERVICES

HYTORC MOBILE SERVICE

HYTORC offers mobile service, maintenance, and training to get you and your tools back on the job faster than ever before. Our on-site training and preventative maintenance ensures all of your equipment is ready when you need it and that your tool operators are trained in safe handling and operation.

HY-CARE

STATISTIC

ON AVERAGE, A TOOL WITH HY-CARE LASTS UP TO **FIVE TIMES** LONGER IN SERVICE.

HY-CARE Service Plans* provide peace of mind protection and offer a no deductible plan to protect you from unexpected bolting equipment repair costs and downtime after your standard equipment warranty expires.

The plan covers parts and labor to repair all key components for up to 5 years. Failure of covered components due to defects in materials, workmanship, or normal wear and tear are included. All repairs are performed on-site by factory trained technicians. **HY-CARE Extended Service Plan** coverage includes 24 hour loaner equipment benefits and mobile service assistance backed by our 24/7/365 live support throughout entire term.

*May not be available in all locations.

Please visit hytorc.com/hy-care or contact your local HYTORC representative for more information.

FREE LOANER TOOLS

We know that your time is valuable. If a replacement tool is needed for an urgent job while your tool is being repaired, it is available free of charge.

DIGITAL CALIBRATION SYSTEM

Our mobile calibration lab provides on-site calibration of manual torque wrenches as well as hydraulic, pneumatic and electric tools with torque output up to 20,000 ft-lbs. For calibration of larger tools, our service technicians offer pickup and drop-off service.

VAN FLEET FULLY EQUIPPED WITH ON-BOARD REPAIR CENTER

Our technicians are trained to repair most brands of hydraulic, pneumatic and electric bolting systems on-site. If a repair cannot be completed, a free loaner tool will be offered while your tool is sent to our nearest service center for repair. Schedule a free visit today at: www.hytorcvan.com.

WHAT ARE THE BENEFITS?

- Access to our 24/7/365 worldwide live support
- Greater tooling reliability that leads to:
 - Safer jobsite
 - Better joint integrity
 - Faster joint assembly
- Faster repair turnarounds with mobile service and free loaner tool program
- Maximum trade-in value
- Greater visibility on tooling service history through our TORCSAFE online portal and inventory management system

HY-CARE PLUS

HY-CARE

The World's Most Trusted Industrial Bolting Systems For Over Fifty Years

HYTORC BOLTING INSTITUTE (HBI)

HYTORC has a goal to educate all those engaged in industrial bolting in the principles and practices that significantly improve safety, quality, and efficiency of bolting operations. We regularly conduct training classes that are designed for a variety of job functions ranging from operators and technicians to managers and engineers. Classes range from a few hours to a few days and can be customized to meet your schedule and specific application focus. In most cases we bring the class to you in order to make training as convenient and economical as possible. HBI offers free courses in Bolting Basics and Basic Operation and Safety and formal fee-based training with certificates from ASME* and OSHA*.

*ASME and OSHA are registered and used with permission.
